Allowable Subject Matter

Applicant's arguments filed 7/12/2006 with respect to the amended claims 1, 6, and 10 have been fully considered, and found persuasive. Thus, claims 1, 4-6, 9, 10, 13, 14 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1, 6, and 10 recite a speed control and stall protection system for an electric DC brush motor comprises a first relay is provided together with a series resistor for operating the motor at a low speed and a second relay is provided for operating the motor at a speed greater than the low speed, the motor control and protection circuit being constructed and arranged to receive the control signal input in form of a speed control signal to selectively activate the first and second relays to control speed of the motor, and to inactivate the first and second relays to disconnect power to the motor. The references of record do not teach or suggest the aforementioned limitation, nor would it be obvious to modify those references to include such limitation.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Danny Nguyen whose telephone number is (571)-272-2054. The examiner can normally be reached on Mon to Fri 8:00 AM to 4:30 PM.
